## Ceramic nozzle tip

0.65mm

0.35mm

## Description

Automatic monorail sprayer sprays agricultural chemicals and water automatically moving along its rail(Ø42 round pipe), which is very easy to find anywhere. It adopts electro-static nozzle, so sprayed mist can reach to the back side of the leaves as well as the front side. This spraying system gives a great effect on insect and disease control and foliar fertilization. Its high quality nozzles are made of anti-abrasion ceramic.
